

South Merced Workshop	
February 26, 2007	
SJ Valley Ideal Future 2050	
<i>Vote</i>	<i>Ideal ideas from participants</i>
10	Clean Air to breath and can see both the coastal and mountain ranges
6	Good quality jobs that don't bring negative health impacts, jobs with direct career path from entry level and beyond, better work force with livable wages, More locally generated entrepreneurship
6	Valleywide City and County officials have a coherent Vision and citizens concerns are taken seriously
4	Roads torn and made into a garden- ie NO GROWTH
4	Air Board representatives are professionals in medical, air and social issues versus appointed elected people
4	Preserve Ag land
4	Regeneration/restoration of natural systems I.e. Merced River, wetlands, etc
3	City and county Building departments learn green building technologies and encourage to use innovative or tried and true old fashion way for example composting toilets/geothermal heat pumps/Solar
3	More accessible and healthy youth recreation opportunities
3	Clean quality water
2	No more prisons, no more gangs
2	Feel safe enough to walk at night and kids can play without constant supervision
1	Effective mass transit valleywide North/South/East/West
1	Walable Communities
1	Able to go to work, earn a good wage, live and shop in a walkable community
0	Tulle Elk Grazing
0	Closer communication between UC and the community
0	Kids can ride safely to school on a bike
0	More people get involve in the community
0	Better advertisement of community meetings
0	More accessibility to our Government representatives
0	Accessibility to political process- more participatory government, ie general plan amendments happen too frequently should have public voting on general plan amendments

0	Children treated as precious/valued and scarce, encourage residents to have fewer children
0	Quality neighborhood parks
0	Large scale answer to humane animal homeless population
0	Better roads
0	Better hospitals
